Shower of gold in New York for ALPINE's annual report

- ▶ **GOLD: ALPINE's own staff prepared Austria's best annual report**
- ▶ **GOLD for the world's best annual report in the construction branch**
- ▶ **GOLD for the world's best photos in the construction branch**

SALZBURG / NEW YORK. The ALPINE construction company's communications team swept the board at this year's "International ARC Awards" in New York City. The best annual reports were honored during the ARC Awards at the end of September from over 2,100 entries. ALPINE's 2010 annual report won against the tough competition from 31 countries in several categories. "The world's best annual report in the construction branch was also honored as the "Best of Austria" from among all of the other branches. "I was especially pleased that the report was not prepared by an agency but by our own team," said Werner Watznauer, Manager of ALPINE Holding, pleased with his communications team's international success.

"You have to endure a harsh climate to be successful"

With over 15,000 employees in more than 30 countries, the ALPINE Group has held its course despite the harsh climate. This guiding principle was communicated by means of text, graphics and powerful photos in ALPINE's winning 2010 annual report "You have to endure a harsh climate to be successful." The winning photo series was shot by Andreas Hofer.

The Austrian ALPINE Construction Company is a global player

The Austrian ALPINE Construction Company is a member of the FCC Group and has built roads, motorways, power plants, stadiums, railways and subways, bridges, residential, commercial and industrial buildings around the world. Together with its subsidiary, ALPINE-ENERGIE, it promotes the construction and development of sustainable, alternative energies and energy networks. Approximately half of the construction output of over 3 billion euros is generated in Austria's domestic market. ALPINE has won international acclaim with foreign projects: ALPINE is responsible for the construction of three stadiums for the 2012 European Football Championships in Poland as well as subway lines in New Delhi and Singapore, the Bulgarian hydraulic power plant in Tsankov Kamak and hundreds of other construction projects of every type and size.
