Machines -
Technical Division

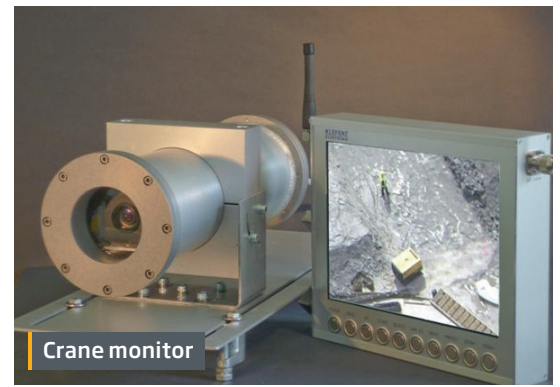

State-of-the-art mechanical engineering and equipment technology

Services provided by our Machines & Technical Division

Crane camera system

Crane monitor

Our own trucks

We look after machinery and equipment

Since 1989, the Machines - Technical Division (MTA) of Alpine Bau Deutschland AG is a reliable and schedule-adhering partner in supporting the company's construction projects.

The division's focus is on providing construction sites with machinery and equipment. The central locations of our building yards ensure we can provide this service across Germany and beyond.

Our continuous striving for optimization earned us certifications in the areas of safety and health at the workplace and environmental protection. Qualified staff provides advice in case of questions and support in implementing special requirements.

Portfolio

- ▶ Provision of the optimum machinery-related solution for any construction site
- ▶ Calculation and project planning of construction site facilities
- ▶ Development of specific proposals, e.g. crane concepts
- ▶ Planning and installation of container systems
- ▶ Motor pool management
- ▶ Site power supply from planning to installation and disassembly
- ▶ IT wiring and network technology, switching authorization up to 30 kV
- ▶ Fully comprehensive equipment management including monitoring of legal inspection schedules of machinery, execution of inspections required by law as well as documentation
- ▶ Installation of crane camera systems
- ▶ Negotiations on electricity tariffs
- ▶ Own electric, machinery and metal working specialists

OUR MACHINERY

- > 50 tower cranes up to 280 m
- > 15 cable and telescopic cranes
- > Crane camera systems
- > Wheel loader
- > Fork lifts
- > Hydraulic excavators
- > Hydraulic engineering technology
- > Cable bridges and static stress analysis

More than

- > 1,000 containers
- > 1,300 site power distribution boxes
- > Concrete vibrators
- > 400 survey equipments
- > 10,000 m² formwork and accessories
- > 50 km site cabling > 25 mm²

> In-house long-distance logistics services

> and a host of other machinery and equipment

Floating equipment

Site power supply

Crane, power station Hamm

Container system

CERTIFIED SAFETY

- ▶ SCC certified central railway station in Dortmund, Germany
- ▶ Modern equipment such as PSA - personal protection equipment against falling
- ▶ Certified stretchers, baskets etc.

A SAMPLE OF OUR PORTFOLIO

BUILDING CONSTRUCTION

- > Five building yards, Munich
- > Lenbachgärten, Munich
- > Consortium Zoofenster, Berlin
- > Sea-Life, Munich
- > BMW used car centre, Munich
- > US Embassy, Berlin
- > Audi AG, Ingolstadt
- > Rinecker hospital, Munich
- > Consortium Holzhafen, Hamburg
- > Central bus station, Munich
- > Pinakothek, Munich
- > Romanian Embassy, Berlin
- > Canada House, Berlin
- > Nympe 3, office building, Munich
- > Ministry of Justice, Berlin
- > Hotel Empire Riverside, Hamburg
- > B & B Hotels, Oberhausen/Nuremberg/Berlin/Koblenz
- > AachenMünchener insurance company, Aachen
- > BBI Terminal, Berlin - Schönefeld

BRIDGE CONSTRUCTION

- > Bridge Thanners, Kempten
- > Unstruttal Bridge, Karsdorf
- > Murgtal Bridge, Murg
- > A 4 Sprottetal Bridge, Ronneburg
- > Consortium Oder Bridge, Frankfurt an der Oder

SPORTS FACILITY CONSTRUCTION

- > Allianz Arena, Munich
- > Cricket Stadium, Dubai
- > National Stadium, Warsaw

POWER STATION CONSTRUCTION

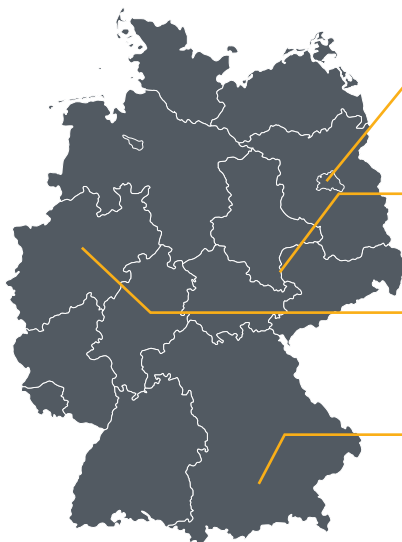

- > Coal-fired power plant Hamm (SCC - construction site)
- > Power station Datteln (SCC - construction site)
- > Power station Neurath
- > Cooling tower RDK 8, Karlsruhe

ROAD CONSTRUCTION

- > BBI rail link, Airport Berlin
- > De-icing solid construction, Frankfurt Airport

TUNNELLING

- > City Tunnel, Leipzig
- > Tunnel Stans, Innsbruck
