PRESS RELEASE

ALPINE TO BUILD NEW DEPARTMENT OF CHEMISTRY AT DANZIG UNIVERSITY

- Contract value approx. 25 million euros
- Completion in June 2012

ALPINE continues its winning streak in Poland and will build the Department of Chemistry at Danzig University as the general contractor. The consortium that just landed the open invitation to tender is composed of ALPINE BAU Deutschland AG and ALPINE Construction Polska sp. z o.o. The contract value is approx. 25 million euros. Construction will start in July 2010 with completion scheduled at the end of June 2012. The building will be part of Danzig University's Baltic campus and was planned by the Polish "architects workshop" from Sopot. "We were able to land another interesting, prestigious contract in Poland with this award," says a delighted Karsten Hell, CEO of ALPINE Bau Deutschland AG, also given credit for winning the bid for the Polish football stadiums for the Euro 2012.

The project will be co-financed by the European Union from the European fund for regional development.

The project

The project consists of six connected segments of different heights. The building will contain lecture halls as well as a warehouse and technology sectors. Pedestrian and bicycle paths as well as green spaces will also be provided. The new building will have a total area of 28,180 m², the parking lot will accommodate 166 cars. Various laboratories are planned for practical training as well as auditoriums for lectures on chemical and environmental engineering.
