PRESS RELEASE

ALPINE BRINGS SMILES TO CHILDREN'S FACES

Check for EUR 10,000 handed over to SOS Children's Village in Seekirchen.

"It was our wish - especially at Christmastime - to help those who are often shut out from society: children with physical disabilities. It just so happened that a barrier-free annex was being built at the SOS Children's Village in Seekirchen, allowing SOS mothers to bring children with physical disabilities into the family for the first time in Austria," says Josef Rettenwander, Manager of the Salzburg branch of ALPINE Bau GmbH. Together with a small delegation from the Salzburg office, Josef Rettenwander handed over a check in the amount of EUR 10,000 to Ms. Evelyn Rehbichler of the SOS Children's Village. The donation was greatly appreciated and is certain to make a difference at the facility.

This year ALPINE is making a donation in lieu of exchanging Christmas gifts. "This is highly supported by our staff," Rettenwander says, pleased with his team's social commitment.

ALPINE's Salzburg office has about 450 employees and is one of the region's major employers.
